

AKTIS ONCOLOGY TO PRESENT AT THE 42ND ANNUAL J.P. MORGAN HEALTHCARE CONFERENCE

01/03/2024

BOSTON, Mass. – January 3, 2024 (GLOBE NEWSWIRE) — Aktis Oncology, a biotechnology company discovering and developing novel classes of targeted alpha radiopharmaceuticals to treat a broad range of solid tumors, today announced that Matthew Roden, Ph.D., President and Chief Executive Officer of Aktis Oncology, will present at the 42 nd Annual J.P. Morgan Healthcare Conference in San Francisco, Calif. Dr. Roden’s presentation will take place on Tuesday, January 9, 2024 at 10:30 a.m. PT.

About Aktis Oncology

Aktis Oncology is a biotechnology company pioneering the discovery and development of a new class of targeted alpha radiopharmaceuticals to treat a broad range of solid tumor cancers. Founded and incubated by MPM Capital, the company has developed proprietary platforms to generate tumor targeting agents with ideal properties for alpha radiotherapy. Designed for high tumor penetration and long residence time, Aktis Oncology’s molecules will quickly clear other areas of the body, thereby maximizing tumor elimination while minimizing side effects of treatment. This approach would enable clinicians to visualize and verify target engagement prior to exposure to therapeutic radioisotopes. To learn more about Aktis Oncology, visit www.aktisoncology.com.
